

## Fsx Jetway Tutorial

This is a short tutorial so there's not much to read!

To get the jet way to move to your aircraft just simply click Ctrl + J

You will then see the jet way start to move to your aircraft

NOTE: You have to be at a gate for this feature to work!

For a more detailed tutorial please watch my Video Tutorial on [www.fsx-tutor.co.uk](http://www.fsx-tutor.co.uk)
